Closing Festivities of High School
Will Begin With Junior-Senior Reception

TWENTY-THREE GRADUATES

Baccalaureate Will be Preached May
21 and Commencement Will
be May 26.

The program for the closing festivities of the Rushville high school has been announced. The usual events incident to the end of the school year will open with the Junior-Senior reception in the Graham Annex gymnasium on Wednesday evening May 17, when the graduates will be the guests of the Juniors.

There will be twenty-three graduates this year and the commencement address as announced yesterday, will be delivered by Dr. John R. Stuart, of Knoxville, Tenn., chautauqua orator and evangelist. The commencement will be held in the Graham Annex auditorium Friday evening, May 26. This will be the closing event of the week.

Intervening activities in connection with the closing of school include the baccalaureate sermon, the Senior class play and the high school alumni banquet.

The annual sermon will be preached to the class Sunday evening, May 21 at the Main Street Christian church by Dr. D. Ira Lambert, pastor of the First Presbyterian church. The class play, "Facing the Music," will be presented in the auditorium, on Tuesday evening May 23, and on the following evening, the twenty-fourth, the bi-ennial alumni banquet will be held in the basement of the Main Street Christian church. The banquet will be served by the Ladies Aid society. The custom is for members of the Senior class to attend the alumni banquet although they have not at the time of the banquet received their diplomas.

The commencement this year is expected to set a new mark for the closing event of the school year because school authorities were able to get Dr. Stuart for the address. The famous evangelist and lecturer is very popular here, having appeared at the chautauqua on two different occasions. It was only by a rare streak of good fortune that the school board was able to get such a celebrated speaker. The usual admission of twenty-five cents.

The Junior-Senior reception will also be a big improvement over events of a similar character in past years because it will be the first time the new gymnasium has been used for a social event of the school. The Juniors are reported to be making very pretentious arrangements for decorations and entertainment.

Those to be graduated this year are as follows: Lucian L. Anderson, Gladys K. Bebout, John Bebout, Benjamin B. Cox, Naomi Ruth Craig, Mary Phyllis Dean, Nellie A. Drake, Fern B. Finley, Agnes P. Foster, Dorothy Frazee, Ruth Higgins, Forrest P. Jones, Ruby M. Newhouse, Chester Perin, Letcher A. Pope, Aelsah Irene Retherford, Anna Mae Siders, Harry Schmalzel, Mildred Stewart, Marian M. Titworth, Dorothy Marie Wright, Mary Helen Rosencrance, Martha Ann Rhulman.

Margaret Owens, eight-year-old daughter of Newell Owens of Peru, Ind., formerly of this city, was killed last night according to a message received today by Mrs. Sam Finney, Sr., aunt of Mr. Owens. The message did not state how the child was killed. Mr. Owens is the son of Mrs. Lydia Owens, who moved from this city ten or eleven years ago. Mr. Owens is a train dispatcher.

DUGAN WINS IN CIRCUIT COURT

Man Who Was Awarded \$100 Damages in Squires Court For Injury to Horse Gets \$65

JURY OUT ONLY A SHORT TIME

The jury in the damage suit of William Dugan against John R. Ward awarded Dugan damages in the sum of \$65 after being out only a short time. Dugan sued for \$100 and was given this sum in Squire Kratzer's court when the case was first heard. The suit was the outgrowth of an accident at the corner of Second and Perkins street. Dugan alleged that his horse was permanently hurt when struck by an automobile driven by Ward. The complaint alleged that Ward "cut the corner" and failed to heed the traffic ordinance.

Ward was on the stand late yesterday afternoon and practically denied everything in the complaint. He stated that Dugan's horse slipped and fell and that it was not even touched by his automobile.

The petition of Lewis E. Hite for a guardian for Aiden C. Hite was dismissed at the petitioner's costs.

KNIGHTS EXPECT TO WIN THE CUP

Rushville Commandery Goes to Sixty-Second Annual Conclave in Special Car Today

THREE FOURTHS OF MEMBERS

The Rushville Knights Templar commandery went to Indianapolis today for the sixty-second annual conclave confident of winning the silver cup to be awarded to the commandery having the largest attendance. The local Knights went in a special car over the I. & C. at 9:04 o'clock.

The local officers expected that seventy-five members of the commandery would be in the parade contesting for the cup. This represents about seventy-five per cent of the membership and is believed to be sufficient to cop the prize or at least make a fine showing. The commandery here has a membership of 105.

BECOMES TRAINED NURSE

Miss Hazel Bennett, daughter of Willard Bennett of this city, is one of the graduates tonight from the nurses' training school of the Methodist hospital in Indianapolis. Miss Bennett is a deserving young woman and her many friends here will be pleased to learn of her success. Mrs. Warder Wyatt of this city attended the commencement exercises.

DUANE REED WINS CONTEST

Will Represent Rushville High School at Association Meeting in Greensburg Saturday

VICTOR OVER FIVE OTHERS

William Sexton is Close Second And Clifford Mauzy Finishes Third

Duane Reed won first place in the oratorical contest held in the Graham Annex last evening with the oration, "War and Public Opinion," bringing with it a plea for peace. It was considered to be the most evenly matched contest of the kind ever held here, each of the orators holding the attention of the audience and each having a number of exceptionally good points in delivery. William Sexton won second place with the oration "Inglorious Peace."

Harry Schmalzel, winner of last year's contest, presided over the meeting presenting each of the speakers. John Fleehart spoke first on "The Wandering Jew," and showed in his delivery a smooth polish, good voice, and an ability to portray the pathos in the oration. William Sexton, aside from having a deep rich voice was earnest and natural in his recital of "Inglorious Peace." It was a good oration, well given and well received.

Duane Reed, the winner of the contest, spoke next. His poise, ease of the stage and forceful gestures were especially remarkable. His voice, too, was good as he presented his subject with earnestness and feeling. Miss Elise Frazee, the only girl in the contest, also was well received as she gave "The Judgments of History." Her enunciation and delivery were both good.

Lucian Anderson brought out the pathos in "The American Infamy," with deep feeling. In this speech against lynching. He has a deep voice, was natural in his delivery and reached an effective climax. Clifford Mauzy, also, reached good tonal effects in his delivery of "The Hero of Compromise." His manner of speaking was very convincing and earnest. Mr. Mauzy received third place in the contest.

The prizes awarded were first place \$5, second place \$3, and third place \$2. Duane Reed will represent the local high school in the contest to be held in Greensburg Saturday, when contestants from Shelbyville, Greensburg, Connersville, Richmond, Greenfield and this city will compete. The contest last evening was in charge of Earl B. Marlatt who coached the speakers.

The judges were all of Indianapolis: W. N. Otto of Shortridge high school, J. R. Carr of the Bobbs-Merrill company and R. G. Collins of Manual Training high school.

CONFIRMS REPORT, NO WARNING GIVEN

Consul Frost at Queenstown Also Says Cymric Was Unarmed and Carried no Americans

DID NOT ATTEMPT TO ESCAPE

(By United Press.)
London, May 10.—American Consul Frost at Queenstown wired confirmation of press reports that the White Star liner Cymric, torpedoed Monday afternoon with the loss of five lives, was hit without warning. Frost also confirmed the statement that there were no Americans aboard the Cymric and that she was not armed.

It was authoritatively stated today that the Cymric was not in admiralty service but as an ordinary merchantman she was entitled to all the immunities granted by Germany in her pledges to the United States in the reply to the United States.

LANSING TAKES NO ACTION

U. S. Attitude in Cases Such as That of Cymric Well Known

(By United Press.)

Washington, May 10.—There was strong indication today that the United States will take no action in the case of the sinking of the Cymric by a submarine. Secretary Lansing's position heretofore frequently defined in cases where American lives have not been jeopardized has been not to protest against submarine attacks. It was stated on highest official authority, "there has been no change yet in this position."

REPLY ACCEPTABLE TO GERMAN PRESS

Some Papers Say President Laid Too Much Stress on Alleged Conditions Set Forth

RESERVES RIGHT TO CHANGE

(By United Press.)

Berlin, May 10.—President Wilson's brief reply accepting Germany's submarine concessions, but rejecting the "condition" with reference to England, will prove acceptable to Germany the Lokal Anzeiger stated today.

The Lokal Anzeiger did not have the exact text of the latest communication from Washington before it when today's editorial comment was written but was guided by apparently reliable reports of its contents. The Berlin newspapers took the view that President Wilson laid too much stress on the alleged condition attached to the German concession and declared there was no condition at all, Germany merely reserving the right to change her mind if the United States did not succeed in its negotiations with England.

BARTON CALDWELL PAINFULLY HURT

Steps in Washout at Side of Road Tuesday Night and is Rendered Unconscious

LIGAMENTS OF LEG ARE TORN

Barton Caldwell of Jersey City was painfully injured last night while on the way to the city to attend orchestra practice when he stepped in a washout on the east side of the road at the north end of the concrete arch between the race bridge and the big bridge over Flatrock in South Main street.

Mr. Caldwell was rendered unconscious. He was found by George Rhulman, but was revived and went on to orchestra practice. He consulted a physician this morning. He was severely bruised and the ligaments of his legs were torn. It was considered fortunate that he escaped with only minor injuries. A fall backwards would have precipitated him into a pond containing about ten feet of water.

The embankment at the side of the street has caved away and the recent rains have so washed the street as to leave a very bad hole. The place is considered dangerous both to traffic and pedestrians.

London, May 10.—More than 700,000 German soldiers have been killed to date and 1,781,310 wounded, according to a press bureau announcement today.

BASE CAMP IS ON THE ALERT TODAY

American Line of Communications From Columbus, N. M., Into Mexico is Strengthened

HEAVY GUARD ABOUT CAMP

Outposts Are Moved Farther Out and Every Passerby is Halted—Unusual Precautions

(By United Press.)

Columbus, N. M., May 10.—The American expeditionary forces were hastily redistributed and point along the line of communications which was strengthened today following receipt of important communication by General Pershing from General Funston last night. Troops were moving all along the line, carrying out new plans and the base camp became unusually alert to guard against unforeseen incidents.

A heavy guard was thrown about the camp last night while the wireless crackled with a constant flow of communications between Funston and Pershing. Outposts were moved farther from town and every passerby was halted. A triple guard was thrown about the big gasoline trench containing thousands of gallons of the explosive fluid.

Arrangements were made today for mobilization here of the New Mexico militia. It was not known definitely when the first troops will arrive but part at least were expected today.

Government aviators continued their tests of the new aeroplanes, preparing to rush them into service for scouting. The expedition at present is without flying apparatus.

TO CO-OPERATE ON PATROL

Obregon Suggests Double Guard Along The Border

(By United Press.)

El Paso, Texas, May 10.—General Scott has submitted to Washington General Obregon's suggested plan for a co-operative border patrol, the troops of each nation to be confined to their own side of the border, Scott admitted today.

Intimating he has authority to submit to such an agreement, Scott said a reply from Washington would not be necessary before today's conference at which it is hoped to conclude the negotiations.

Scott was uncertain whether today's meeting will end the conference, but both he and General Funston were decidedly optimistic today over the outlook for a peaceful conclusion.

No more troops, either militia or

Putting the "Win" in Window

A show window in itself is one arm of business getting.

Newspaper advertising is the strong, powerful body.

When two are linked together they make a business team with a punch.

Merchants frequently effect this combination by linking their windows with the manufacturer's newspaper advertising.

They put the goods in the window at the time the manufacturer's newspaper advertising is running and thus bring business to their stores.

This is literally putting the "win" in window.

REGULARS TO CROSS BORDER

Mexican Forces Reported Massing Just Across Border

(By United Press.)
Marathon, Texas, May 10.—While Mexican forces were reported massing south of the border across from Lantry, Texas, today, Major Langhorne's command of the Eighth cavalry was expected to cross the border this afternoon in pursuit of the fleeing remnants of the Gleen Spring bandit command.

The troops arrived at Bouquillas. Another force of the Fourteenth cavalry under Colonel Macomb will arrive there tonight and is expected to lose little time going into Mexico.

BANDIT LEADER KILLED

Marathon, Texas, May 10.—Demetrio Dela Garza, noted bad man of the Big Bend country and reported leader of the Glenn Spring raiders, was killed in a fight with two American cavalry men at Deemers, Texas, yesterday, according to J. W. Judson, an American who arrived at the base today.

LAST OF ENGLAND'S BOYS ANSWER CALL

Starting Today Single Men 18 Years Old and Over Started Enlisting Service.

MUST TRAIN FOR ONE YEAR

BY WILBUR S. FORREST.
London, May 10.—Beginning today, the last of Great Britain's single men, eligible for army service, began to get into khaki.

In all sections of the country, young men of 18 years of age reported at supply depots and changed their civilian raiment for army duds. They will remain in training until they have reached the age of nineteen, at which time they will be subject to service in actual warfare.

With the first drafts reporting today, it is expected that within a month every eligible single man, whether attested under the Derby recruiting scheme or liable for service under the Conscription Act, will have left civilian pursuits for war duty.

Carrying out pledges to the married eligibles, made in the House of Commons, the government is rapidly digging out simple men from munition factories and other governmental positions. They are being replaced by women.

The first groups of married men who attested for service under the Derby plan are now beginning to assume the appearance of trained troops. They have been in service more than a month. Their ages range from nineteen to twenty-six.

HOLDS ELWOOD IS "WET"

Judge Ellis Rules Against "Drys" in Election Controversy

(By United Press.)
Anderson, Ind., May 10.—Judge Ellis in superior court today decided that the "wets" won the Elwood option election by four votes. The "dry" force immediately announced that they will carry the case to the supreme court.

The election board at the time of the election in January gave the "drys" a majority of 17. A recount was ordered and the county commissioners ruled that the "wets," won by eight votes. The "drys" then appealed to the superior court. Elwood now has thirteen saloons.

Just One Plate On Auto is Not a Sure Sign of Guilt

If you should happen to see a motorist with only one license plate, don't indict him in your own mind; he may not be guilty.

But it has been discovered that the state is being cheated out of fees by some smooth automobile owners who conceived the idea of buying two plates for one machine and using one on each of two machines. When a motorist gets a license, he also receives two number plates, one for the back of the machine and one for the front.

The Muncie police uncovered the scheme and it is said to be the opinion of police officials that it may have been worked many other places in the state.

At various times it was noticed by the Muncie officials that automobiles had only a license number in the rear, none being on the front of the machine. When questioned, the automobilist invariably would say he had lost one of his number plates and had sent for a duplicate, whereupon he was permitted to proceed. But the other day the officers found two automobiles with a single number plate each and both plates bearing the same numerals. One of the men confessed the fraud.

NO REASON FOR IT

When Rushville Citizens Show a Way

There can be no reason why any reader of this who suffers the tortures of an aching back, the annoyance of urinary disorders, the pains and dangers of kidney ills will fail to heed the words of a neighbor who has found relief. Read what a Rushville citizen says:

Mrs. Lizzie Borem, 840 W. 9th St., Rushville, says: "About six years ago I began to have trouble with my kidneys. The kidney secretions were very annoying and the trouble kept getting worse. The kidney secretions were very painful in passage and scanty. Doctors said it was gravel, but none of them did me any good. A short time ago I heard of how someone else was cured by Doan's Kidney Pills, so I got a box at Wolcott's Drug Store. They helped me and I kept on using them. I have taken four boxes so far and the pain has left and I feel a great deal better. I believe that Doan's Kidney Pills will cure me."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Borem had. Foster-Milburn, Co., Props., Buffalo, N. Y. (Advertisement)

Tire Wear is Like Shoe Wear

A heavy man is hard on shoe leather; a heavy car is hard on rubber.

Some people are easier on shoes than others. They have a light, springy step that prolongs wear.

So it is with the Franklin car. Its light weight saves the tires from hard pounding; its flexible, springy construction softens the shocks that the tires must stand.

This is the reason for the national Franklin owners' average of 9630 miles per set of tires. And also why punctures are few and blowouts almost unheard of.

Just Supposing.

Just supposing that the United States should break relations with Germany and declarations of war should be banded back and forth, what part would this country play? That is an illusive subject that has been discussed a good bit of late.

Several suggestions have been offered by newspapers and prominent men in many places. Some people have wondered if the United States would send troops to the continent to aid the allies. It has been wondered by many if the fleet would be sent to foreign waters to aid the British and French battleships in making the blockade of Germany complete. Again, it has often been asked if a call for volunteers would be issued and the recruits sent abroad to begin training for service. According to the best authorities, the following would be the logical outcome of such a procedure:

It is most likely that the United States, if actually drawn into the war, would play a part a great deal similar to that of Japan today. Japan and Germany are at war. But the only part that Japan has played is to send munitions to Russia, with maybe a few officers to direct the movements of the hosts of Russian troops. True, she has given her complete moral and financial support to the allies.

The same course would probably be pursued by the United States. In the event of actual warfare this government would lend its undivided moral, commercial, industrial and financial support to the entente allies, but it is doubtful if Americans would actually participate in the world war.

Our rapidly growing steel and munition factories would be put to work overtime in the efforts to turn out as many shells as possible. The German liners now interned in various American ports would be seized by the government and put into service carrying all kinds of supplies to the allies.

The bankers of the United States would stand solidly behind the allies and lend all possible financial aid, and this probably would be one of the deciding features of the war. It has often been said that the side with the most money would be the ultimate victor, and with the United States on the side of England, France, Russia and Italy there is no doubt that the doubt that the financial tide would be turned against the Teutonic powers.

Mail in the Air.

That the Aeroplane is destined to become a constantly increasing factor in our economic problem is clearly shown by an article appearing in "Flying," from which we quote in part:

"After five years of continuous efforts on the part of the Post Office Department, a few Congressmen and Senators, the Aero Club of America, and affiliated aero clubs, and others, the first step towards employing aeroplanes for mail carrying has been taken.

On February 12th, the United States Post Office Department issued a advertisement inviting proposals carrying "the mails of the United States—by aeroplane."

There are eight routes in the official announcement, one in Massachusetts, between Nantucket and New Bedford, and seven in Alaska.

The time for these bids to be in expires May 12th. If the Post Office is successful in getting bids for these eight routes, then next year there may be added between fifty and one hundred other routes, where only the aeroplane can solve the difficult problems of mail transportation, by cutting across canyons, mountains, and other natural constructions, which make it necessary, at the present time, to make long detours, to say nothing of the tremendous loss in time. In some cases, the aeroplane accomplishes in fifteen or twenty minutes what now takes all the way from eighteen hours to

fifteen days, by the present method of slow transportation.

The flying machine promises to be one of the most potential factors in the future development of Alaska—and of all places where the run of commerce is slow on account of lack of fast transportation. It needs neither roads nor rails nor bridges; only landing places at convenient intervals.

You all Know Him.

A local citizen played it on his wife the other day. Went home to lunch. Very silent. Thoughts apparently far away. Mooned around for an hour. Told his wife he had seen the sweetest and most beautiful woman on earth. Discovered an immediate and intense frigidity in atmosphere. Home surcharged with electricity. Wife dignified and silent. Uncommunicative. Children dismayed and in awe. Dog and cat slink away. Storm brewing. About to break. Man remarks the "beautiful one," is married. Husband a lucky dog. He is the husband. Frigidity disappears. Electricity vanishes. Clouds melt away. Sunshine again. Warmth everywhere. Peaches and cream. Lovey, dovey. Children happy. Dog and cat back. Pic for a week. Amen.

Kick the kicker before he kicks you.

Another week and no war for us. We have hopes.

No, no, the prices of printers' commodity are not up in the clouds. They are above the sky.

Mexico is like unto the bad boy who wants to fight but only hangs back for fear he will get licked.

Here's hoping we will never have to spank Mexico. One can not rub against soot without getting black.

War or no war, it is noted with pride that the farmer, like the industrious honey bee, keeps right on buzzing way.

Current Comments

California Back.

(Muncie Press.)

The gratifying news comes from California that the regular ticket of candidates for national delegates has been elected in the primary by a large majority. As this happened in a primary, there is no room for the complaint that the bosses have stifled the voice of the people. The people did it themselves. The Republican registration in California this year was about equal to that of all the other parties put together. Recognizing the fact, that the G. O. P. was on the way back in a state in which Taft received in 1912 only about 5,000 votes, Governor Hiram Johnson, besides running Progressive delegate ticket, bade his cohorts enter the Republican primaries and under the name of the United Republicans capture the Republican as well as the Progressive delegation as well as the Progressive delegations. They tried the trick, but couldn't turn it and the delegation to the Republican national convention

is of another persuasion. It is generally agreed that Governor Johnson showed considerable "nerve" in issuing a proclamation stating that while he is not a Republican he advised the election of the United Republican slate delegates. The Governor seems to be trying to belong to so many parties that it may yet turn out that he belongs to none. The California result indicates that in the hard school of experience California is learning common sense.

EVANSVILLE WAS BUSY PLACE TODAY

"Pocket" Celebrating Centennial and Entertaining Civil War Veterans at Same Time.

PAGEANT TO BE BIG FEATURE

(By United Press.)
Evansville, Ind., May 10.—Southern Indiana outdid itself here today in celebrating the entrance of Indiana into the union. The spirit of the affair was heightened by the presence of the Indiana Grand Army of the Republic, the United States Spanish War Veterans, and affiliated organizations.

Some features of the pageant were shown this afternoon in the G. A. R. parade, but the big exhibition will come tonight and tomorrow night. There are 2,000 performers in the pageant, of whom 120 are leading characters.

This was a holiday in Evansville. Eight thousand "pocket" enthusiasts flocked into the "pocket metropolis," coming on every train and interurban. In all, it is estimated, 60,000 visitors will be entertained here during the centennial and G. A. R. convention.

The scenario of the pageant was written by Mrs. Albion Fellows Bacon, author of Indiana's housing state's progress from the time of law and writer. It deals with the mound builders to the present day. The principal events will be shown on a 200-foot stage, 180 feet deep, in Bosse field. One interesting scene will represent the founding of the Vincennes Sun, the oldest paper in the state.

Health for Sick Women

For Forty Years Lydia E. Pinkham's Vegetable Compound Has Been Woman's Most Reliable Medicine —Here is More Proof.

To women who are suffering from some form of woman's special ills, and have a constant fear of breaking down, the three following letters ought to bring hope:—

North Crandon, Wis.—"When I was 16 years old I got married and at 18 years I gave birth to twins and it left me with very poor health. I could not walk across the floor without having to sit down to rest and it was hard for me to keep about and do my work. I went to a doctor and he told me I had a displacement and ulcers, and would have to have an operation. This frightened me so much that I did not know what to do. Having heard of Lydia E. Pinkham's Vegetable Compound I thought I would give it a trial and it made me as well as ever. I cannot say enough in favor of the Pinkham remedies."—Mrs. MAYME ASBACH, North Crandon, Wis.

Testimony from Oklahoma.

Lawton, Okla.—"When I began to take Lydia E. Pinkham's Vegetable Compound I seemed to be good for nothing. I tired easily and had headaches much of the time and was irregular. I took it again before my little child was born and it did me a wonderful amount of good at that time. I never fail to recommend Lydia E. Pinkham's Vegetable Compound to ailing women because it has done so much for me."—Mrs. A. L. McCASLAND, 509 Have St., Lawton, Okla.

From a Grateful Massachusetts Woman.

Roxbury, Mass.—"I was suffering from inflammation and was examined by a physician who found that my trouble was caused by a displacement. My symptoms were bearing down pains, backache, and sluggish liver. I tried several kinds of medicine; then I was asked to try Lydia E. Pinkham's Vegetable Compound. It has cured me and I am pleased to be in my usual good health by using it and highly recommend it."—Mrs. B. M. Osgood, 1 Haynes Park, Roxbury, Mass.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

VIEW OF FUTURE IS OPTIMISTIC

Ministers and Laymen at Purdue Rural Church Conference See Hopeful Outlook.

RURAL SURVEY IS ADVOCATED

Every Community Possesses Social Forces Necessary, But Problem is to Harness Them.

Lafayette, Ind., May 10.—Ministers and laymen attending the second annual Rural Church Conference which closed today at Purdue University agreed, after reviewing and discussing the work already accomplished in the direction of rural welfare advancement in Indiana that considerable progress has already been made and that in the year ahead greater things still will be achieved. Various useful suggestions were brought out in discussions and it was the consensus of opinion that every rural community possesses the social forces necessary to the betterment of rural life, the great problem being to harness these agencies together and make them work in cooperation for the common weal. The rural survey, it was agreed, is the proper basis for all rural progress.

At the closing session of the conference the principal speakers were Prof. Paul Vogt of Columbus, O., a successful director of rural surveys, and Prof. E. L. Earp of the Drew theological seminary, a noted teacher, author and lecturer. At the Tuesday evening meeting Prof. Earp had discussed "Team Work for the Rural Community." He distinguished between team "in" the community and team work "for" the community. The essentials of team organization he listed as follows: work by men and women of average ability; a moving project, co-operative effort and well-articulated plan; efficiency in personnel, training in team play and encouragement from the side lines. In organizing for team work he said, every legitimate community activity must have representation. Specific tasks must be outlined for team work such as public health projects, preventing delinquency, caring for growing young life, study of industrial problems, problem of waste in denominational overlapping in caring for spiritual interests of the community. Victory in team work, he said, means an improved social sympathy; the kingdom of God come to earth.

In his address on "Harnessing Rural Social Forces," today Prof. Earp said that every rural community possesses the social forces but they are unorganized and scattered. But conditions are fast becoming such that rural districts are not characterized by isolation and monotony. Social life in the country is fast taking place on the same plane with social life in the urban districts. Leadership and cooperation are the great needs. A community consciousness as opposed to individualism is needed. Leaders must have a vision of what is best in community life and sacrifice must be made in behalf of the community. The talent and energy and ambition of the rank and file of rural folk should be utilized.

One of the most interesting and helpful discourses of the Conference program was that on "Rural Church Surveys and Their Utilization," by Prof. Paul Vogt of Columbus, O. "Know the resources of the community, known the conditions prevailing in it, and then from this study or diagnosis of the situation, make a community building plan that will involve as many as possible who have willingness and capacity." A rural survey, he said, will bring to light many things which are not noticed particularly, which whose significance has not been appreciated, things which have a bearing on the life of the community. "The survey plan," he continued, "comes out of a desire for efficiency. It means a general scientific investigation of the strength and weakness of a community as a way of getting at the problem of making the community a better place to live in. It gives scientific information on which to base a well organized plan of procedure." The speaker emphasized the folly of spending much effort and money on survey work which is not studied and used as a basis for community improvement. Enthusiastic discussion followed this address, showing great interest in the subject.

The Rural Church Conference developed a greatly increased interest in the subject of church federation and rural welfare. Out of this year's meeting will grow an enlarged scope of rural activity and a continued effort toward solving the great problem of rural life. District conferences will be arranged to carry home the lessons brought out by the state conference.

INDIANA GUARD MAY HAVE TO GO TO WAR

War Department Officials Believe Militia of Whole Country May be Needed

EITHER IN MEXICO OR BORDER

Washington, May 10.—The belief is general in congressional circles that the present ugly situation in Mexico is the beginning of intervention. Developments followed one another with a rapidity that intensified excitement in the national capital. War Department officials now believe it will be necessary to throw the entire militia of the country, approximately 120,000 men either into Mexico or along the Rio Grande for border duty.

They will not be surprised if orders to mobilize the entire militia, including the Indiana forces, come from the White House within thirty days.

They point out that in no other way can an adequate fighting force be obtained quickly should a general invasion become necessary. Recruiting for the regular army has fallen down miserably, the average number of recruits being about 130 a day. One-third of the regular army is out of the United States. In the Philippines there are about 12,000 and approximately the same number are at Panama.

The War Department made public the militia strength of Ohio Valley states, as shown by the latest records, as follows: Indiana—Officers, 170; men, 2,677; Kentucky—Officers, 168; men, 2,329. Ohio—Officers, 543; men, 6,983.

Gums shrinking? Danger ahead!

Go now to a mirror and examine your mouth? Do your gums look "rinsed out," shrunken? Do you see a jagged appearance in the gum-line?

If so, see your dentist. He will tell you that you have pyorrhea, and that to save your teeth you will have to fight this dread disease at once.

But Senreco does more. It cleanses the teeth delightfully. It gives them a whiteness distinctive of Senreco alone. Its flavor is entirely pleasing, and it leaves in the mouth a wonderful sense of coolness and wholesomeness.

Start the Senreco treatment before pyorrhea grips you for good. Details in folder with every tube. A two-ounce tube for 25c is sufficient for 6 weeks' daily treatment. Get Senreco of your druggist today; or send 4c in stamps or coin for sample tube and folder. Address The Santanel Remedies Company 593 Union Central Building, Cincinnati, Ohio.

From pyorrhea come by far the greater part of all tooth troubles. Unless treated and checked, it will result not only in the shrinking and malformation of your gums and of the bony structure into which your teeth are set, but in the loss of the teeth themselves.

A specific for pyorrhea has been discovered recently by dental science, and is now offered for daily treatment in Senreco Tooth Paste. Senreco combats the germ of the disease. Its regular use insures your teeth against the attack or further progress of pyorrhea.

See your dentist twice yearly. Use Senreco twice daily.

Urges Iowa Democrats to Support President Wilson.

(By United Press.)
Clinton, Ia., May 10.—Joseph Daniels, secretary of the navy, rallied Iowa democrats to support President Wilson and the administration at the state convention here today. Daniels spoke after E. T. Meredith of Des Moines, candidate for governor.

This is the state convention to prepare the delegates for the St. Louis convention. The candidates for the state offices will be selected at the June primaries and the state platform adopted at the next state convention, but Meredith took occasion to deliver a "dry" speech just the same, showing that his platform will be dry regardless of past democratic platforms.

Leaders Say Question Will Never be Voted on Again Because Majority Was Decisive

CITY HAS BEEN DRY 7 YEARS

Sullivan, Ind., May 10.—In a local option election yesterday the dries carried Sullivan by a majority of 426, nearly four times that of the last election three years ago. The wets expected a close vote, and they have made no announcement of any plans for a contest, while the dries declare that as the result of their decisive victory the saloon question will never be voted upon again in Sullivan. The election was quiet, no arrests being made.

The results by wards were as follows: First—dry, 225; wet, 104. Second—dry, 248; wet, 83; Third—dry, 207; wet 67.

Sullivan with a population of about 8,000, has been dry since 1909, remonstrances having made the city dry at that time while the county was wet. Two option elections, have since been held. In May, 1911, the dries won by fifty-eight and in May, 1913, they increased their majority to 128.

COMMENCEMENT DATES PUBLIC

Closing Festivities of High School
Will Begin With Junior-Senior Reception

TWENTY-THREE GRADUATES

Baccalaureate Will be Preached May
21 and Commencement Will
be May 26.

The program for the closing festivities of the Rushville high school has been announced. The usual events incident to the end of the school year will open with the Junior-Senior reception in the Graham Annex gymnasium on Wednesday evening May 17, when the graduates will be the guests of the Juniors.

There will be twenty-three graduates this year and the commencement address as announced yesterday, will be delivered by Dr. John R. Stuart, of Knoxville, Tenn., chautauqua orator and evangelist. The commencement will be held in the Graham Annex auditorium Friday evening, May 26. This will be the closing event of the week.

Intervening activities in connection with the closing of school include the baccalaureate sermon, the Senior class play and the high school alumni banquet.

The annual sermon will be preached to the class Sunday evening, May 21 at the Main Street Christian church by Dr. D. Ira Lambert, pastor of the First Presbyterian church. The class play, "Facing the Music," will be presented in the auditorium, on Tuesday evening May 23, and on the following evening, the twenty-fourth, the bi-annual alumni banquet will be held in the basement of the Main Street Christian church. The banquet will be served by the Ladies Aid society. The custom is for members of the Senior class to attend the alumni banquet although they have not at the time of the banquet received their diplomas.

The commencement this year is expected to set a new mark for the closing event of the school year because school authorities were able to get Dr. Stuart for the address. The famous evangelist and lecturer is very popular here, having appeared at the chautauqua on two different occasions. It was only by a rare streak of good fortune that the school board was able to get such a celebrated speaker. The usual admission of twenty-five cents.

The Junior-Senior reception will also be a big improvement over events of a similar character in past years because it will be the first time the new gymnasium has been used for a social event of the school. The Juniors are reported to be making very pretentious arrangements for decorations and entertainment.

Those to be graduated this year are as follows: Lucian L. Anderson, Gladys K. Bebout, John Bebout, Benjamin B. Cox, Naomi Ruth Craig, Mary Phyllis Dean, Nellie A. Drake, Fern B. Finley, Agnes P. Foster, Dorothy Frazee, Ruth Higgins, Forrest P. Jones, Ruby M. Newhouse, Chester Perin, Letcher A. Pope, Aelsah Irene Retherford, Anna Mae Siders, Harry Schmalzel, Mildred Stewart, Marian M. Tittsworth, Dorothy Marie Wright, Mary Helen Rosencrance, Martha Ann Rhulman.

Owens, Meets Death at Peru

Margaret Owens, eight-year-old daughter of Newell Owens of Peru, Ind., formerly of this city, was killed last night according to a message received today by Mrs. Sam Finney, Sr., aunt of Mr. Owens. DUGAN WINS IN CIRCUIT COURT

Man Who Was Awarded \$100 Dam-
ages in Squires Court For In-
jury to Horse Gets \$65

JURY OUT ONLY A SHORT TIME

The jury in the damage suit of William Dugan against John R. Ward awarded Dugan damages in the sum of \$65 after being out only a short time. Dugan sued for \$100 and was given this sum in Squire Kramer's court when the case was first heard. The suit was the outgrowth of an accident at the corner of Second and Perkins street. Dugan alleged that his horse was permanently hurt when struck by an automobile driven by Ward. The complaint alleged that Ward "cut the corner" and failed to heed the traffic ordinance.

Ward was on the stand late yesterday afternoon and practically denied everything in the complaint. He stated that Dugan's horse slipped and fell and that it was not even touched by his automobile.

The petition of Lewis E. Hite for a guardian for Alden C. Hite was dismissed at the petitioner's costs.

KNIGHTS EXPECT TO WIN THE CUP

Rushville Commandery Goes to Six-
ty-Second Annual Conclave in
Special Car Today

THREE FOURTHS OF MEMBERS

The Rushville Knights Templar commandery went to Indianapolis today for the sixty-second annual conclave confident of winning the silver cup to be awarded to the commandery having the largest attendance. The local Knights went in a special car over the I. & C. at 9:04 o'clock.

The local officers expected that seventy-five members of the commandery would be in the parade contesting for the cup. This represents about seventy-five per cent of the membership and is believed to be sufficient to cop the prize or at least make a fine showing. The commandery here has a membership of 105.

DUANE REED WINS CONTEST

Will Represent Rushville High
School at Association Meeting
in Greensburg Saturday

VICTOR OVER FIVE OTHERS

William Sexton is Close Second
And Clifford Mauzy Finishes
Third

Duane Reed won first place in the oratorical contest held in the Graham Annex last evening with the oration, "War and Public Opinion," bringing with it a plea for peace. It was considered to be the most evenly matched contest of the kind ever held here, each of the orators holding the attention of the audience and each having a number of exceptionally good points in delivery. William Sexton won second place with the oration "Inglorious Peace."

Harry Schmalzel, winner of last year's contest, presided over the meeting presenting each of the speakers. John Fleehart spoke first on "The Wandering Jew," and showed in his delivery a smooth polish, good voice, and an ability to portray the pathos in the oration. William Sexton, aside from having a deep rich voice was earnest and natural in his recital of "Inglorious Peace." It was a good oration, well given and well received.

Duane Reed, the winner of the contest, spoke next. His poise, ease of the stage and forceful gestures were especially remarkable. His voice, too, was good as he presented his subject with earnestness and feeling. Miss Elise Frazee, the only girl in the contest, also was well received as she gave "The Judgments of History." Her enunciation and delivery were both good.

Lucian Anderson brought out the pathos in "The American Infamy," with deep feeling. In this speech against lynching. He has a deep voice, was natural in his delivery and reached an effective climax. Clifford Mauzy, also, reached good tonal effects in his delivery of "The Hero of Compromise." His manner of speaking was very convincing and earnest. Mr. Mauzy received third place in the contest.

The prizes awarded were first place \$5, second place \$3, and third place \$2. Duane Reed will represent the local high school in the contest to be held in Greensburg Saturday, when contestants from Shelbyville, Greensburg, Connersville, Richmond, Greenfield and this city will compete. The contest last evening was in charge of Earl B. Marshall who coached the speakers.

The judges were all of Indianapolis: W. N. Otto of Shortridge high school, J. R. Carr of the Bobbs-Merrill company and R. G. Collins of Manual Training high school.

CONFIRMS REPORT, NO WARNING GIVEN

Consul Frost at Queenstown Also
Says Cymric Was Unarmed
and Carried no Americans

DID NOT ATTEMPT TO ESCAPE

(By United Press.)
London, May 10.—American Consul Frost at Queenstown wired confirmation of press reports that the White Star liner Cymric, torpedoed Monday afternoon with the loss of five lives, was hit without warning. Frost also confirmed the statement that there were no Americans aboard the Cymric and that she was not armed.

It was authoritatively stated today that the Cymric was not in admiralty service but as an ordinary merchantman she was entitled to all the immunities granted by Germany in her pledges to the United States in the reply to the United States.

LANSING TAKES NO ACTION

U. S. Attitude in Cases Such as
That of Cymric Well Known

(By United Press.)
Washington, May 10.—There was strong indication today that the United States will take no action in the case of the sinking of the Cymric by a submarine. Secretary Lansing's position heretofore frequently defined in cases where American lives have not been jeopardized has been not to protest against submarine attacks. It was stated on highest official authority, "there has been no change yet in this position."

REPLY ACCEPTABLE TO GERMAN PRESS

Some Papers Say President Laid
Too Much Stress on Alleged
Conditions Set Forth

RESERVES RIGHT TO CHANGE

(By United Press.)
Berlin, May 10.—President Wilson's brief reply accepting Germany's submarine concessions, but rejecting the "condition" with reference to England, will prove acceptable to Germany the Lokal Anzeiger stated today.

The Lokal Anzeiger did not have the exact text of the latest communication from Washington before it when today's editorial comment was written but was guided by apparently reliable reports of its contents. The Berlin newspapers took the view that President Wilson laid too much stress on the alleged condition attached to the German concession and declared there was no condition at all, Germany merely reserving the right to change her mind if the United States did not succeed in its negotiations with England.

BARTON CALDWELL PAINFULLY HURT

Steps in Washout at Side of Road
Tuesday Night and is Rend-
ered Unconscious

LIGAMENTS OF LEG ARE TORN

Barton Caldwell of Jersey City was painfully injured last night while on the way to the city to attend orchestra practice when he stepped in a washout on the east side of the road at the north end of the concrete arch between the race bridge and the big bridge over Flat-rook in South Main street.

Mr. Caldwell was rendered unconscious. He was found by George Rhulman, but was revived and went on to orchestra practice. He consulted a physician this morning. He was severely bruised and the ligaments of his legs were torn. It was considered fortunate that he escaped with only minor injuries. A fall backwards would have precipitated him into a pond containing about ten feet of water.

The embankment at the side of the street has caved away and the recent rains have so washed the street as to leave a very bad hole. The place is considered dangerous both to traffic and pedestrians.

London, May 10.—More than 700,000 German soldiers have been killed to date and 1,781,310 wounded, according to a press bureau announcement today.

BASE CAMP IS ON THE ALERT TODAY

American Line of Communications
From Columbus, N. M., Into
Mexico is Strengthened

HEAVY GUARD ABOUT CAMP

Outposts Are Moved Farther Out
and Every Passerby is Halted
—Unusual Precautions

(By United Press.)
Columbus, N. M., May 10.—The American expeditionary forces were hastily redistributed and point along the line of communications which was strengthened today following receipt of important communication by General Pershing from General Funston last night. Troops were moving all along the line, carrying out new plans and the base camp became unusually alert to guard against unforeseen incidents.

A heavy guard was thrown about the camp last night while the wireless crackled with a constant flow of communications between Funston and Pershing. Outposts were moved farther from town and every passerby was halted. A triple guard was thrown about the big gasoline trench containing thousands of gallons of the explosive fluid.

Arrangements were made today for mobilization here of the New Mexico militia. It was not known definitely when the first troops will arrive but part at least were expected today.

Government aviators continued their tests of the new aeroplanes, preparing to rush them into service for scouting. The expedition at present is without flying apparatus.

TO CO-OPERATE ON PATROL

Obregon Suggests Double Guard
Along The Border

(By United Press.)
El Paso, Texas, May 10.—General Scott has submitted to Washington General Obregon's suggested plan for a co-operative border patrol, the troops of each nation to be confined to their own side of the border, Scott admitted today.

Intimating he has authority to submit to such an agreement, Scott said a reply from Washington would not be necessary before today's conference at which it is hoped to conclude the negotiations.

Scott was uncertain whether today's meeting will end the conference, but both he and General Funston were decidedly optimistic today over the outlook for a peaceful conclusion.

No more troops, either militia or

Putting the "Win" in Window

A show window in itself is one arm of business getting.

Newspaper advertising is the strong, powerful body.

When two are linked together they make a business team with a punch.

Merchants frequently effect this combination by linking their windows with the manufacturer's newspaper advertising.

They put the goods in the window at the time the manufacturer's newspaper advertising is running and thus bring business to their stores.

This is literally putting the "win" in window.

real estate described in the complaint in said cause filed in the Rush Circuit
Court, will on

Saturday, June 3d, 1916

at one o'clock p. m. of said day and from day to day thereafter until sold,
offer for sale to the highest and best bidder, the following described real estate
in said county of Rush, State of Indiana, to-wit:

The southwest quarter of Section 10; also the south half of the northwest
quarter of said Section 10; also the southeast quarter of said Section 10, ex-
cept the following tract: beginning at the northwest corner of the said south-
east quarter of said Section 10, thence south 25 poles, thence east 160 poles
to the east line of said Section, thence north 25 poles to the northeast corner of
said quarter, thence west on the north line of said quarter to the place of be-
ginning; all of said real estate being in Township 13 north, Range 9 east and
containing 388.58 acres. Also Lot No. 276 in Payne, Reeve and Allen
as trustees addition to the city of Rushville.

At the law office of Sam. L. Trabue, Rushville, Ind.

This real estate consists of residence property at 820 W. Eighth St., Rushville,
Indiana, and 388.58 acres of, exceptionally good, level, agricultural land,
sufficiently undulating for excellent drainage, which is provided by two large
tile drains crossing each tract, and sufficient laterals. It is equipped with two
complete sets of farm buildings, is well fenced and is supplied with excellent
water by eight wells, three being deep water wells. This is burr oak, poplar
and sugar tree land, and is very productive of all kinds of grain and grasses.
It is all under a high state of cultivation except about 35 acres of woodland,
part of which is on each tract and part of which is well set in blue-grass. By
judicious crop rotation, clover growing and fertilization this land has retained
a very high degree of fertility, as is evidenced by the fact that administrator's
sale amounted to \$15,500.00 in addition to grain feed and a \$2,500.00
wheat crop. There are 2 first class orchards of leading fruits—one young
and the other full bearing; also all kinds of small fruits. No open
drains. No waste land whatever. This land is located 4½ miles southwest of
Rushville on first class highway, in active producing natural gas belt, con-
venient to church and schools and near a high tension electric supply line from
which power and light may be obtained. Community highly intellectual and
progressive. Will be sold in tracts ranging from 81 acres to 140 acres or
all together.

TERMS—One-third cash, one-third in 12 months and one-third in 18
months with option of paying all cash. Deferred payments to be evidenced
by purchasers note bearing 6 per cent per annum interest from date and secured

REGULARS TO CROSS BORDER

Mexican Forces Reported Massing Just Across Border

(By United Press.)

Marathon, Texas, May 10.—While Mexican forces were reported massing south of the border across from Lantry, Texas, today, Major Langhorne's command of the Eighth cavalry was expected to cross the border this afternoon in pursuit of the fleeing remnants of the Glenn Spring bandit command.

The troops arrived at Bonquillas. Another force of the Fourteenth cavalry under Colonel Macomb will arrive there tonight and is expected to lose little time going into Mexico.

BANDIT LEADER KILLED

(By United Press.)

Marathon, Texas, May 10.—Demetrio Dela Garza, noted bad man of the Big Bend country and reported leader of the Glenn Spring raiders, was killed in a fight with two American cavalry men at Deemers, Texas, yesterday, according to J. W. Judson, an American who arrived at the base today.

LAST OF ENGLAND'S BOYS ANSWER CALL

Starting Today Single Men 18 Years Old and Over Started Enlisting Service.

MUST TRAIN FOR ONE YEAR

BY WILBUR S. FORREST.

London, May 10.—Beginning today, the last of Great Britain's single men, eligible for army service, began to get into khaki.

In all sections of the country, young men of 18 years of age reported at supply depots and changed their civilian raiment for army duds. They will remain in training until they have reached the age of nineteen, at which time they will be subject to service in actual warfare.

With the first drafts reporting today, it is expected that within a month every eligible single man, whether attested under the Derby recruiting scheme or liable for service under the Conscription Act, will have left civilian pursuits for war duty.

Carrying out pledges to the married eligibles, made in the House of Commons, the government is rapidly digging out simple men from munition factories and other governmental positions. They are being replaced by women.

The first groups of married men who attested for service under the Derby plan are now beginning to assume the appearance of trained troops. They have been in service more than a month. Their ages range from nineteen to twenty-six.

HOLDS ELWOOD IS "WET"

Judge Ellis Rules Against "Drys" in Election Controversy

(By United Press.)

Anderson, Ind., May 10.—Judge Ellis in superior court today decided that the "wets" won the Elwood option election by four votes. The "dry" force immediately announced that they will carry the case to the supreme court.

The election board at the time of the election in January gave the "drys" a majority of 17. A recount was ordered and the county commissioners ruled that the "wets," won by eight votes. The "drys" then appealed to the superior court. Elwood now has thirteen saloons.

Just One Plate On Auto is Not a Sure Sign of Guilt

If you should happen to see a motorist with only one license plate, don't indict him in your own mind; he may not be guilty.

But it has been discovered that the state is being cheated out of fees by some smooth automobile owners who conceived the idea of buying two plates for one machine and using one on each of two machines. When a motorist gets a license, he also receives two number plates, one for the back of the machine and one for the front.

The Muncie police uncovered the scheme and it is said to be the opinion of police officials that it may have been worked many other places in the state.

At various times it was noticed by the Muncie officials that automobiles had only a license number in the rear, none being on the front of the machine. When questioned, the automobilist invariably would say he had lost one of his number plates and had sent for a duplicate, whereupon he was permitted to proceed. But the other day the officers found two automobiles with a single number plate each and both plates bearing the same numerals. One of the men confessed the fraud.

NO REASON FOR IT

When Rushville Citizens Show a Way

There can be no reason why any reader of this who suffers the tortures of an aching back, the annoyance of urinary disorders, the pains and dangers of kidney ills will fail to heed the words of a neighbor who has found relief. Read what a Rushville citizen says:

Mrs. Lizzie Borem, 840 W. 9th St., Rushville, says: "About six years ago I began to have trouble with my kidneys. The kidney secretions were very annoying and the trouble kept getting worse. The kidney secretions were very painful in passage and scanty. Doctors said it was gravel, but none of them did me any good. A short time ago I heard of how someone else was cured by Doan's Kidney Pills, so I got a box at Wolcott's Drug Store. They helped me and I kept on using them. I have taken four boxes so far and the pain has left and I feel a great deal better. I believe that Doan's Kidney Pills will cure me."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Borem had. Foster-Milburn, Co., Props., Buffalo, N. Y. (Advertisement)

Tire Wear is Like Shoe Wear

A heavy man is hard on shoe leather; a heavy car is hard on rubber.

Some people are easier on shoes than others. They have a light, springy step that prolongs wear.

So it is with the Franklin car. Its light weight saves the tires from hard pounding; its flexible, springy construction softens the shocks that the tires must stand.

This is the reason for the national Franklin owners' average of 9630 miles per set of tires. And also why punctures are few and blowouts almost unheard of.

Just Supposing.

Just supposing that the United States should break relations with Germany and declarations of war should be bandied back and forth, what part would this country play? That is an illusive subject that has been discussed a good bit of late.

Several suggestions have been offered by newspapers and prominent men in many places. Some people have wondered if the United States would send troops to the continent to aid the allies. It has been wondered by many if the fleet would be sent to foreign waters to aid the British and French battleships in making the blockade of Germany complete. Again, it has often been asked if a call for volunteers would be issued and the recruits sent abroad to begin training for service. According to the best authorities, the following would be the logical outcome of such a procedure:

It is most likely that the United States, if actually drawn into the war, would play a part a great deal similar to that of Japan today. Japan and Germany are at war. But the only part that Japan has played is to send munitions to Russia, with maybe a few officers to direct the movements of the hosts of Russian troops. True, she has given her complete moral and financial support to the allies.

The same course would probably be pursued by the United States. In the event of actual warfare this government would lend its undivided moral, commercial, industrial and financial support to the entente allies, but it is doubtful if Americans would actually participate in the world war.

Our rapidly growing steel and munition factories would be put to work overtime in the efforts to turn out as many shells as possible. The German liners now interned in various American ports would be seized by the government and put into service carrying all kinds of supplies to the allies.

The bankers of the United States would stand solidly behind the allies and lend all possible financial aid, and this probably would be one of the deciding features of the war. It has often been said that the side with the most money would be the ultimate victor, and with the United States on the side of England, France, Russia and Italy there is no doubt that the doubt that the financial tide would be turned against the Teutonic powers.

Mail in the Air.

That the Aeroplane is destined to become a constantly increasing factor in our economic problem is clearly shown by an article appearing in "Flying," from which we quote in part:

"After five years of continuous efforts on the part of the Post Office Department, a few Congressmen and Senators, the Aero Club of America, and affiliated aero clubs, and others, the first step towards employing aeroplanes for mail carrying has been taken.

On February 12th, the United States Post Office Department issued an advertisement inviting proposals carrying "the mails of the United States—by aeroplane."

There are eight routes in the official announcement, one in Massachusetts, between Nantucket and New Bedford, and seven in Alaska.

The time for these bids to be in expires May 12th. If the Post Office is successful in getting bids for these eight routes, then next year there may be added between fifty and one hundred other routes, where only the aeroplane can solve the difficult problems of mail transportation, by cutting across canyons, mountains, and other natural constructions, which make it necessary, at the present time, to make long detours, to say nothing of the tremendous loss in time. In some cases, the aeroplane accomplishes in fifteen or twenty minutes what now takes all the way from eighteen hours to

fifteen days, by the present method of slow transportation.

The flying machine promises to be one of the most-potential factors in the future development of Alaska—and of all places where the run of commerce is slow on account of lack of fast transportation. It needs neither roads nor rails nor bridges; only landing places at convenient intervals.

You all Know Him.

A local citizen played it on his wife the other day. Went home to lunch. Very silent. Thoughts apparently far away. Mooned around for an hour. Told his wife he had seen the sweetest and most beautiful woman on earth. Discovered an immediate and intense frigidity in atmosphere. Home surcharged with electricity. Wife dignified and silent. Uncommunicative. Children dismayed and in awe. Dog and cat slink away. Storm brewing. About to break. Man remarks the "beautiful one," is married. Husband a lucky dog. He is the husband. Frigidity disappears. Electricity vanishes. Clouds melt away. Sunshine again. Warmth everywhere. Peaches and cream. Lovey, dovey. Children happy. Dog and cat back. Pic for a week. Amen.

Kick the kicker before he kicks you.

Another week and no war for us. We have hopes.

No, no, the prices of printers' commodity are not up in the clouds. They are above the sky.

Mexico is like unto the bad boy who wants to fight but only hangs back for fear he will get licked.

Here's hoping we will never have to spank Mexico. One can not rub against soot without getting black.

War or no war, it is noted with pride that the farmer, like the industrious honey bee, keeps right on buzzing way.

Current Comments

California Back.

(Muncie Press.)

The gratifying news comes from California that the regular ticket of candidates for national delegates has been elected in the primary by a large majority. As this happened in a primary, there is no room for the complaint that the bosses have stifled the voice of the people. The people did it themselves. The Republican registration in California this year was about equal to that of all the other parties put together. Recognizing the fact, that the G. O. P. was on the way back in a state in which Taft received in 1912 only about 5,000 votes, Governor Hiram Johnson, besides running Progressive delegate ticket, bade his cohorts enter the Republican primaries and under the name of the United Republicans capture the Republican as well as the Progressive delegation as well as the Progressive delegations. They tried the trick, but couldn't turn it and the delegation to the Republican national convention

is of another persuasion. It is generally agreed that Governor Johnson showed considerable "nerve" in issuing a proclamation stating that while he is not a Republican he advised the election of the United Republican slate delegates. The Governor seems to be trying to belong to so many parties that it may yet turn out that he belongs to none. The California result indicates that in the hard school of experience California is learning common sense.

EVANSVILLE WAS BUSY PLACE TODAY

"Pocket" Celebrating Centennial and Entertaining Civil War Veterans at Same Time.

PAGEANT TO BE BIG FEATURE

(By United Press.)
Evansville, Ind., May 10.—Southern Indiana outdid itself here today in celebrating the entrance of Indiana into the union. The spirit of the affair was heightened by the presence of the Indiana Grand Army of the Republic, the United States Spanish War Veterans, and affiliated organizations.

Some features of the pageant were shown this afternoon in the G. A. R. parade, but the big exhibition will come tonight and tomorrow night. There are 2,000 performers in the pageant, of whom 120 are leading characters.

This was a holiday in Evansville. Eight thousand "pocket" enthusiasts flocked into the "pocket metropolis," coming on every train and interurban. In all, it is estimated, 60,000 visitors will be entertained here during the centennial and G. A. R. convention.

The scenario of the pageant was written by Mrs. Albion Fellows Bacon, author of Indiana's housing state's progress from the time of law and writer. It deals with the the mound builders to the present day. The principal events will be shown on a 200-foot stage, 180 feet deep, in Bosse field. One interesting scene will represent the founding of the Vincennes Sun, the oldest paper in the state.

Health for Sick Women

For Forty Years Lydia E. Pinkham's Vegetable Compound Has Been Woman's Most Reliable Medicine —Here is More Proof.

To women who are suffering from some form of woman's special ills, and have a constant fear of breaking down, the three following letters ought to bring hope:—

North Crandon, Wis.—"When I was 16 years old I got married and at 18 years I gave birth to twins and it left me with very poor health. I could not walk across the floor without having to sit down to rest and it was hard for me to keep about and do my work. I went to a doctor and he told me I had a displacement and ulcers, and would have to have an operation. This frightened me so much that I did not know what to do. Having heard of Lydia E. Pinkham's Vegetable Compound I thought I would give it a trial and it made me as well as ever. I cannot say enough in favor of the Pinkham remedies."—Mrs. MAYME ASBACH, North Crandon, Wis.

Testimony from Oklahoma.

Lawton, Okla.—"When I began to take Lydia E. Pinkham's Vegetable Compound I seemed to be good for nothing. I tired easily and had headaches much of the time and was irregular. I took it again before my little child was born and it did me a wonderful amount of good at that time. I never fail to recommend Lydia E. Pinkham's Vegetable Compound to ailing women because it has done so much for me."—Mrs. A. L. McCASLAND, 509 Have St., Lawton, Okla.

From a Grateful Massachusetts Woman.

Roxbury, Mass.—"I was suffering from inflammation and was examined by a physician who found that my trouble was caused by a displacement. My symptoms were bearing down pains, backache, and sluggish liver. I tried several kinds of medicine; then I was asked to try Lydia E. Pinkham's Vegetable Compound. It has cured me and I am pleased to be in my usual good health by using it and highly recommend it."—Mrs. B. M. Osgood, 1 Haynes Park, Roxbury, Mass.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

VIEW OF FUTURE IS OPTIMISTIC

Ministers and Laymen at Purdue Rural Church Conference See Hopeful Outlook.

RURAL SURVEY IS ADVOCATED

Every Community Possesses Social Forces Necessary, But Problem is to Harness Them.

Lafayette, Ind., May 10.—Ministers and laymen attending the second annual Rural Church Conference which closed today at Purdue University agreed, after reviewing and discussing the work already accomplished in the direction of rural welfare advancement in Indiana that considerable progress has already been made and that in the year ahead greater things still will be achieved. Various useful suggestions were brought out in discussions and it was the consensus of opinion that every rural community possesses the social forces necessary to the betterment of rural life, the great problem being to harness these agencies together and make them work in cooperation for the common weal. The rural survey, it was agreed, is the proper basis for all rural progress.

At the closing session of the conference the principal speakers were Prof. Paul Vogt of Columbus, O., successful director of rural surveys, and Prof. E. L. Earp of the Drew theological seminary, a noted teacher, author and lecturer. At the Tuesday evening meeting Prof. Earp had discussed "Team Work for the Rural Community." He distinguished between team "in" the community and team work "for" the community. The essentials of team organization he listed as follows: work by men and women of average ability; moving project, co-operative effort; and well articulated plan; efficiency in personnel, training in team play; and encouragement from the side lines. In organizing for team work he said, every legitimate community activity must have representation. Specific tasks must be outlined for team work such as public health projects, preventing delinquency, caring for growing young life, study of industrial problems, problem of waste in denominational overlapping in caring for spiritual interests of the community. Victory in team work, he said, means an improved social sympathy; the kingdom of God come to earth.

In his address on "Harnessing Rural Social Forces," today Prof. Earp said that every rural community possesses the social forces but they are unorganized and scattered. But conditions are fast becoming such that rural districts are not characterized by isolation and monotony. Social life in the country is fast taking place on the same plane with social life in the urban districts. Leadership and cooperation are the great needs. A community consciousness as opposed to individualism is needed. Leaders must have a vision of what is best in community life and sacrifice must be made in behalf of the community. The talent and energy and ambition of the rank and file of rural folk should be utilized.

One of the most interesting and helpful discourses of the Conference program was that on "Rural Church Surveys and Their Utilization," by Prof. Paul Vogt of Columbus, O. "Know the resources of the community, known the conditions prevailing in it, and then from this study or diagnosis of the situation, make a community building plan that will involve as many as possible who have willingness and capacity." A rural survey, he said, will bring to light many things which are not noticed particularly, which whose significance has not been appreciated, things which have a bearing on the life of the community. "The survey plan," he continued, "comes out of a desire for efficiency. It means a general scientific investigation of the strength and weakness of a community as a way of getting at the problem of making the community a better place to live in. It gives scientific information on which to base a well organized plan of procedure." The speaker emphasized the folly of spending much effort and money on survey work which is not studied and used as a basis for community improvement. Enthusiastic discussion followed this address, showing great interest in the subject.

The Rural Church Conference developed a greatly increased interest in the subject of church federation and rural welfare. Out of this year's meeting will grow an enlarged scope of rural activity and a continued effort toward solving the great problem of rural life. District conferences will be arranged to carry home the lessons brought out by the state conference.

INDIANA GUARD MAY HAVE TO GO TO WAR

War Department Officials Believe Militia of Whole Country May be Needed

EITHER IN MEXICO OR BORDER

Washington, May 10.—The belief is general in congressional circles that the present ugly situation in Mexico is the beginning of intervention. Developments followed one another with a rapidity that intensified excitement in the national capital. War Department officials now believe it will be necessary to throw the entire militia of the country, approximately 120,000 men either into Mexico or along the Rio Grande for border duty.

They will not be surprised if orders to mobilize the entire militia, including the Indiana forces, come from the White House within thirty days.

They point out that in no other way can an adequate fighting force be obtained quickly should a general invasion become necessary. Recruiting for the regular army has fallen down miserably, the average number of recruits being about 130 a day. One-third of the regular army is out of the United States. In the Philippines there are about 12,000 and approximately the same number are at Panama.

The War Department made public the militia strength of Ohio Valley states, as shown by the latest records, as follows: Indiana—Officers, 170; men, 2,677; Kentucky—Officers, 168; men, 2,329. Ohio—Officers, 543; men, 6,983.

Gums shrinking? Danger ahead!

Go now to a mirror and examine your mouth? Do your gums look "rinsed out," shrunken? Do you see a jagged appearance in the gum-line?

If so, see your dentist. He will tell you that you have *pyorrhea*, and that to save your teeth you will have to fight this dread disease at once.

But *Senreco* does more. It cleanses the teeth delightfully. It gives them a whiteness distinctive of *Senreco* alone. Its flavor is entirely pleasing, and it leaves in the mouth a wonderful sense of coolness and wholesomeness.

Start the *Senreco* treatment before *pyorrhea* grips you for good. Details in folder with every tube. A two-ounce tube for 25c is sufficient for 6 weeks' daily treatment. Get *Senreco* of your druggist today; or send 4c in stamps or coin for sample tube and folder. Address The Santal Remedies Company 503 Union Central Building, Cincinnati, Ohio.

From *pyorrhea* come by far the greater part of all tooth troubles. Unless treated and checked, it will result not only in the shrinking and malformation of your gums and of the bony structure into which your teeth are set, but in the loss of the teeth themselves.

DANIELS IS CAMPAIGNING

Urges Iowa Democrats to Support
President Wilson.

(By United Press.)
Clinton, Ia., May 10.—Joseph Daniels, secretary of the navy, rallied Iowa democrats to support President Wilson and the administration at the state convention here today. Daniels spoke after E. T. Meredith of Des Moines, candidate for governor.

This is the state convention to prepare the delegates for the St. Louis convention. The candidates for the state offices will be selected at the June primaries and the state platform adopted at the next state convention, but Meredith took occasion to deliver a "dry" speech just the same, showing that his platform will be dry regardless of past democratic platforms.

SULLIVAN GOES DRY ONCE MORE

Leaders Say Question Will Never be
Voted on Again Because Major-
ity Was Decisive

CITY HAS BEEN DRY 7 YEARS

Sullivan, Ind., May 10.—In a local option election yesterday the dries carried Sullivan by a majority of 426, nearly four times that of the last election three years ago. The wetts expected a close vote, and they have made no announcement of any plans for a contest, while the dries declare that as the result of their decisive victory the saloon question will never be voted upon again in Sullivan. The election was quiet, no arrests being made.

The results by wards were as follows: First—dry, 225; wet, 104. Second—dry, 248; wet, 83; Third—dry, 207; wet 67.

Sullivan with a population of about 8,000, has been dry since 1909, remonstrances having made the city dry at that time while the county was wet. Two option elections, have since been held. In May, 1911, the dries won by fifty-eight and in May, 1913, they increased their majority to 128.
